Ensuring that hospitals had an adequate supply of ventilators was crucial to fighting COVID-19. As part of the health response, the Solidarity Fund partnered with the South African government to improve the country's supply of, and access to, ventilators for those who need them.

This resulted in the birth of the National Ventilator Project (NVP) to locally manufacture non-invasive ventilators. For more information, click below for the National Ventilator Production Impact ... [See more](#)

The civil unrest that swept across parts of KZN and Gauteng in July 2021 continues to impact businesses and traders in the area.

Click here lnkd.in/d98Vhtdt for an update on interventions that we and our partners embarked on to assist those affected.

A COVID-19 booster shot will not only top up your protection, it'll also be especially helpful if you have underlying health issues.

Why not get your booster shot at any vaccination site this weekend? They're free, safe and effective!
